

Gläsernes Labor Akademie (GLA) – Business Orientation & Practical Training in Life Sciences

- Career orientation programs for young scientists
- Advanced training for technical assistants (BTAs, CTAs, MTAs, MTLAs) and laboratory technicians
- Experience in life science education & training for more than 20 years
- 1-day-workshops, summer schools, intensive specialist courses
- Highly professional trainers and lecturers share expertise and practical knowledge in research, development, business and industry
- Collaborations with the MDC, FMP, VBIO, BPI, TÜV and others

Biotech & Pharma Courses 2022

31 August – 03 September 2022

„FROM TARGET TO MARKET“ - THE GLA BIOTECH PHARMA SUMMER SCHOOL

The 4-day intensive course provides a comprehensive overview of the entire drug development process in biotechnology and in the pharmaceutical industry – from the idea to the market. The trainer team consists of experts in medicine, pharmaceutical industry, biotech companies, contract research and consulting organizations etc.

Fees: Regular 1.683,00 €*, academic institutions 1.346,00 €*

07 – 15 September 2022

GMP BIOTECH SUMMER SCHOOL - BASIC COURSE BIOTECHNOLOGY & ATMPs

Knowing and applying the Good Manufacturing Practice (GMP) regulations is one of the key elements in the manufacture of medicinal products for clinical trials and on an industrial level. This course concentrates on GMP requirements regarding biopharmaceutical and Advanced Therapy Medicinal Products (ATMP) manufacturing. Most important elements of GMP will be explained in an easy-to-understand way with reference to the relevant GMP regulations and examples of how regulatory requirements are transferred into practice.

Fee: 2.042,00 €*

05 December 2022

GOOD CLINICAL PRACTICE (GCP) - BASIC TRAINING

Good Clinical Practice (GCP) is the ethical and scientific basis for the planning, preparation, conduct and reporting of clinical trials. GCP defines the principles for any clinical trial conducted with medicinal products. The seminar will include presentations with many practical examples as well as workshops on the most important topics of GCP. The trainers will focus on the responsibilities of the study sponsor (e.g. pharmaceutical or biotech company) but will also cover those elements that are of importance for the investigational team at the study site, i.e. at the hospital or private practice.

Fee: 358,00 €*
